TOP SECRET

4 MAY 1949

MEMORANDUM FOR:

THE DIRECTOR OF INTELLIGENCE,
DEPARTMENT OF THE AIR FORCE

SUBJECT:

REFERENCE:

1. With reference to subject request submitted by Colonel Robert Taylor III, this is to advise you that no new information of significance has been evaluated since the report which was sent you as of 9 March 1949.

2. It is my understanding that such intelligence information reports as are produced on this subject are furnished your department routinely through normal distribution channels and the distribution of monthly summaries seems unnecessary. Further, it is not believed desirable to submit monthly status reports on requests for intelligence information; and as stated in the previous report, it is impossible to determine the expected date of completion.

3. Intelligence information on this and other subjects pertaining to nuclear energy is evaluated informally by the Joint Nuclear Energy Intelligence Committee, and Lt. Colonel W. M. Boyd, your representative, is in a position to receive all the evaluated information on this subject as it is produced.

S/
R. H. HILLENKOETTER
REAR ADMIRAL, USN
DIRECTOR OF CENTRAL INTELLIGENCE
